Tennessee

Stacy Moore • Broadway Flooring • Knoxville, TN

This car was a gift to my wife from her father about four years ago. It underwent a three year restoration that included replacing the original transmission with a Datsun 280 Z five speed transmission, a chrome bumper conversion, a 1965 steel dash and completely new black with blue piping leather interior. The coolest thing about a British car is when you flip a Lucas switch, nothing catches on fire.

ECB® Classic provides crack isolation up to 3/8" and is available in 1'x50', 2'x50' and 3'x50' rolls.

CALIFORNIA

Joe Salvo • Miracle Sealants, Inc. • Acacia, CA

I've owned this car for eight years and it was already a 10-time Antique Automobile Club of America (AACA) winner when I bought it. It had a complete nut and bolt, frame off, rotisserie restoration with all original or NOS parts. It now has 15 AACA awards and many others. I enjoy detailing and working on it with my son Dalton and we show it 2-4 times a year at the most prestigious events around the west. Unfortunately it is no longer a driver as it is too nice and the parts are only original once.

6" Seam Tape is a double stick elastomeric tape designed to seal and waterproof seams, joints, floor-to-wall transitions and is suitable for interior and exterior applications.

MICHIGAN

Paul Bronikowski • Flooring Sales Rep • Clarkston, MI

I purchased this car in 2006 and stripped it to the shell to restore. The motor was rebuilt to the 302 cubic inch original specifications, which was unique to the first generation Camaros. It has a factory tach, Consal gauges, Cowl induction hood, four-speed manual transmission, 12 bolt Posi rear end and rally wheels.

Super SAM®125 has an IIC 51, STC 54 and a Delta IIC of 22 and is for use without a sound rated ceiling assembly and is the most effective "all-in-one" membrane on the market today.

MINNESOTA

Tim Erickson • Flooring Installer • Isanti, MN

This Malibu has a 481 big block, naturally aspirating motor making 700 HP on 92 octane and an additional 150 HP is available with nitrous. It has a Tremec TKO 600 five speed transmission and 456 gears and is painted viper red. I've owned this car for 14 years and drive it everywhere, to a car show 300 miles away or to the grocery store with my wife.

SubSeal® liquid waterproof membrane is a stand-alone crack suppressant and moisture barrier for interior and exterior applications and is an effective solution for shower walls.

CALIFORNIA

Buddy Bellflower • California Interiors • San Gabriel, CA

I've wanted this model of car since I was in high school. It was a one owner vehicle before I purchased it and the original owner bought the car from a dealership just a few miles from my office! I found it in Connecticut and had it trucked back to LA. It has a sneaky fast 1969 Corvette big block 427 with a full 2" drop hotchkis suspension and B & M turbo 400 with 17" wheels.

AIA • Philadelphia, PA

Strataflex features a 2" double stick lap joint that creates a watertight seal and also provides up to 3/8" crack isolation protection.

IOWA

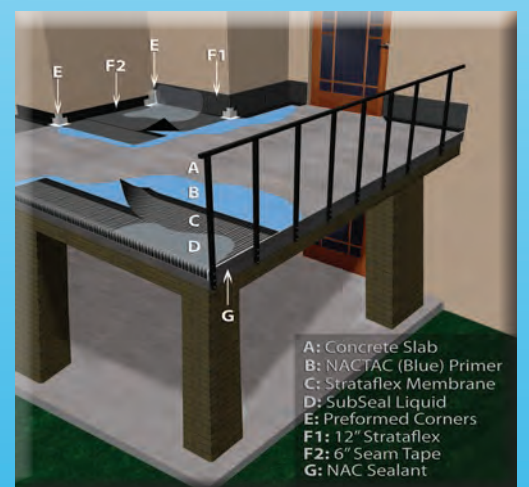

Larry Hampton • Ackley Flooring, Inc. • Cedar Rapids, IA
 Built in 1932, this is an all steel, uncut body with fiberglass fenders. It has a 330 horsepower SBC that scoots right along. It has front disc brakes and is fun to set the cruise control at highway speeds. It's more of a "family sedan" and I put about 5000 miles a year on it.

The Extreme Deck System provides a double layer of waterproof protection for exterior decks and balconies.

FLORIDA

John Spadavecchia, Jr. • Italian Tile & Marble • Delray Beach, FL

I've owned this car for more than a year and did a complete restoration inside and out. It's a street and strip race car with no back seat to allow room for tubing the rear to accommodate the huge rear tires. It has a 5-speed Tremec transmission and looks and sounds fantastic. I only drive it on the weekends in good weather.

Moisture Lock is a liquid floor hardener and sealer that strengthens and hardens substrates to minimize absorption while maximizing the coverage of NAC primers.

1985 Hatz CB-1 Biplane
Steve Garrison • ES Dockery, Inc • Johnson City, TN
 My father Davis, and I built this from scratch 1980-1985. My Dad carved the propeller from mahogany. The fuselage is chromoly tubing and the wings are sitka spruce. It is covered in Dacron fabric with a Polyfiber system and has a 150 horsepower Lycoming engine that cruises at 100 mph. This plane has been flown by three generations of Garrisons.

1968 Plymouth Fury III
Tom Duvé • NAC Products, Inc. • Stow, OH
 I've had 'Big Red' for several years and decided to do a ground up restoration. The challenge was finding restoration and NOS parts to keep the stock appearance look. It's a fun car to drive with its 8-track radio, power windows, brakes and steering. Lurking under the hood is a stock appearing 500 c.i. TNT big block motor that rattles the windows and smokes the tires.
