**IOWA**

Larry Hampton • Ackley Flooring • Cedar Rapids, IA

Built in 1932 this is an all steel, uncut body with fiberglass fenders. It has a 330 horsepower SBC that scoots right along. The car has front disc brakes and its fun to set the cruise control at highway speeds. It's more of a "family sedan" and I put about 5,000 miles a year on it.

● 1932 Ford Model B Tudor ●

# JANUARY 2017

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
<b>1</b> New Year's Day	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>	<b>7</b>

<b>29</b>	<b>30</b>	<b>31</b>				

**BWI Airport, Baltimore, MD**

The airport required crack isolation protection for the ticketing and concourse areas. More than 64,000 SQ FT of ECB® Classic was installed.

**1972 Firebird Formula**  
**Randy Hanovick • Ceramic & Marble Designs • Mars, PA**  
 I owned a stock-car and raced at a local dirt track. I had to undergo a double hip surgery and figured it was time to find a new hobby. I went to see a buddy I knew would have connections to assist in selling the car. He had a 1972 firebird under tarps, in very poor condition that he drove in high school and hoped to one day restore. I knew that I wanted this car to be my next challenge. After many attempts, I convinced him to trade cars. It took many long nights, a supportive wife, good friends, and a lot of cash, but 15 months later my 1972 Pontiac Firebird Formula was restored! Mission accomplished!

	President's Day		Washington's Birthday			
<b>26</b>	<b>27</b>	<b>28</b>				

**Milwaukee Art Museum, Milwaukee, WI**

The museum was in need of crack isolation protection over a hydronic heated floor and **ECB® Classic** was the choice with more than 31,000 SQ FT installed.

**CALIFORNIA**

**Buddy Bellflower • California Interiors • San Gabriel, CA**

My first vehicle at 17 was a 1972 GMC. I have always wanted to bring one back from the auto graveyard so I purchased this one. I performed a complete rotisserie restoration and added a lot of my own custom touches including custom interior with air, a 462" big block and 4L60E overdrive transmission, with 20" rims and 35" tires. This one is my daughter's dream ride.

**1972 GMC 4x4**

# MARCH 2017

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
			<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>

<b>26</b>	<b>27</b>	<b>28</b>	<b>29</b>	<b>30</b>	<b>31</b>	

**Beverly Wilshire Medical Centre, Beverly Hills, CA**

The medical centre utilized **ECB®** and **SubSeal®** liquid waterproofing membrane to help attach large granite slabs to their exterior façade.

**1990 Avanti Cafero**  
**David Roskelley • Montana Living Direct • Jefferson City, MT**  
 The Avanti was a "lost car," meaning the serial number was known to have been produced but it had no MSO. Upon locating the car in Texas, I did some research and contacted the registrar and confirmed the serial number sequence that made this the last known car on the production line. The car was sold to a California auto dealer without an MSO and it was never titled. It was driven back to Texas and warehoused. I am now the original titled owner of this classic with less than 6000 miles. I am always interested in trades!

**Ted Stevens Airport, Anchorage AK**

Just under 100,000 SQ FT of ECB® was installed to protect the porcelain and travertine tile throughout the airport.

# CALIFORNIA

Joe Salvo • Miracle Sealants Company • Arcadia, CA

I have all of the maintenance records for this car that has more than 394,000 miles on it. Don Mertz Restoration performed the metal work and restored the paint to the original MBZ color Signal Red. The interior was restored using precious, Italian White Nappa Leather. "We love driving it down the Pacific Coast Highway with the top down."

**1971 Mercedes Benz 280 SL Pagoda**

Memorial Day

### Ritz Carlton, Los Angeles, CA

Super SAM® was field tested alongside 9 other products in an attempt to correct a previous failure. Super SAM® emerged as the most effective sound abatement product, while also providing up to 3/8" of crack protection.

# INDIANA

**Jesse Tremain • Tremain Tile, Marble & Granite • Indianapolis, IN**

This was my dream car at the age of 18. A close friend whose father owned a Chevy Dealership drove an identical Corvette when we graduated high school. It has a 427/Tri-power 4-speed with Posi-Traction and off road side exhaust. I purchased mine in 2008 from an acquaintance who did a complete frame off restoration. I drive it about 200 miles a year. It's always a great thrill to get behind the wheel on a warm sunny day and cruise the open road – great stress reliever.

**1967 Corvette Stingray Convertible**

### Hard Rock Café, New York, NY

The restaurant needed a waterproofing solution and chose **Strataflex**, with its 2" double stick overlap joint, providing a watertight seal while also protecting for up to 3/8" lateral substrate movement.

**MICHIGAN**

**Paul Bronikowski • PJB Sales • Clarkston, MI**

I purchased the body of this car 19 years ago when my wife and I were expecting our first child. I thought it would be a project if I had a son to work on together. Three daughters later, and sitting for years in the garage, my wife told me to build it or get rid of it. It has an original chassis and firewall with the original VIN number. It has an early 50's flathead with offenhauser tri-power intake and heads, Straumburg 97 carburetor, the original suspension and a 1936 banjo rear end. It also has original wire wheels and a wood dash with gold colored gauges.

### Tampa International Airport, Tampa, FL

The airport was looking to protect the ornate designs of its new flooring throughout the main concourse. ECB® was chosen to protect the wide variety of flooring and designs.

**1941 Packard Rollson Limo Convertible**

**David Johnson • Summitville Tiles, Inc • Salem, OH**

This car is a "one off" custom built limo convertible commissioned by the youngest daughter of oil tycoon John D. Rockefeller, the largest and the last such custom made convertible to be built by the renowned Rollson Company of New York City. The car was ordered with all Packard scripts and marque insignia removed. The car was to have understated elegance and advertising the car maker was considered to be in poor taste. The rear seat of the car is separated by a division window; and there is a rare, rear seat speedometer so that the 25 mph speed limit on the family estate could be monitored.

**OHIO**

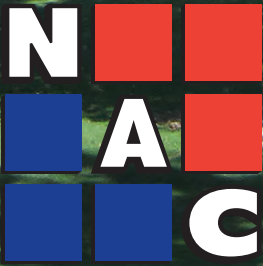

# AUGUST 2017

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
		<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
<b>6</b>	<b>7</b>	<b>8</b>	<b>9</b>	<b>10</b>	<b>11</b>	<b>12</b>

<b>27</b>	<b>28</b>	<b>29</b>	<b>30</b>	<b>31</b>		

### Caribe Resort, Orange Beach, AL

The resort required sound abatement for the interior and utilized **Super SAM®**. The exterior balconies needed waterproofing and **Strataflex** was solution.

*California*

**Marcella Prado • Laticrete International • CA**

As the second owner, I bought this car in 1983 in near mint condition. I put it in my parents' garage in 1989 where it sat for 10 years. My Dad ordered the parts to update and repair the car from Ferrari. We repainted, installed the trademark yellow Ferrari brakes and put on a new top. The interior is all original! From first dates, proms and weddings, someone in the family has driven it to something special. Considering its reputation - Fix It Again Tony - I never had to meet Tony!

● **1980 Fiat Spider 2000** ●

# SEPTEMBER 2017

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
					<b>1</b>	<b>2</b>
<b>3</b>	<b>4</b> Labor Day	<b>5</b>	<b>6</b>	<b>7</b>	<b>8</b>	<b>9</b>

First Day of Autumn

## Building One57, New York, NY

This high-end residential building required the best sound abatement membrane on the market and **Super SAM®** was the product of choice.

# OHIO

Tom Duve • NAC Products • Stow, OH

The post war era created a "sellers Market" and like this 47 Mercury, customers could load up with extra options like a heater, cigarette lighter/ashtray, spotlights, fender skirts, side view mirrors, power top, three on the tree (3 speed column shift) and a 100 h.p. flathead V8. I like this car because of its style and originality. With only about 10,000 produced, it is rare to find an unadulterated, stock (except for the hubcaps) fully optioned hotrod from that era.

**1947 Mercury Club Coupe Convertible**

## OCTOBER 2017

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>	<b>7</b>

Halloween

### Wright State University, Dayton, OH

In the classroom, hallways, residence halls or the atriums, ECB® is the preferred product when crack protection is required.

**GEORGIA**

**Louis Price • Spectra Contract Flooring • Norcross, GA**

I bought this car a little over a year ago and changed the entire suspension, adding four wheel disc brakes, new floor pans and modern lighting. Interior was upgraded to bucket seats and vintage air. Power supplied by 383 SB producing 480 HP backed by a Tremec 5 speed transmission and 12 bolt posi rear end. I drive it every weekend and have logged 6000 miles in a year. Old guys drive cool cars!

**1971 Chevrolet Chevelle**

# NOVEMBER 2017

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
			<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>
<b>5</b>	<b>6</b>	<b>7</b>	<b>8</b>	<b>9</b>	<b>10</b>	<b>11</b> <small>Veteran's Day</small>

### Portofino Island Resort, Pensacola FL

This island resort needed sound control for the living areas and waterproofing for the balconies. **Super SAM®** and **Strataflex** made the installation a success.

# FLORIDA

Nolan Walker • The Ciano Company • Fort Myers, FL

This was a cheap car bought for college in 1998. In 2002 with nearly 300,000 miles on the engine, it finally quit. I stored it for a few years and hatched a plan to make it run again. It has morphed into what you see, a de-stroked 400 sbc (377 ci), backed by a 5-speed transmission with 3.42 gears out back. It has custom springs, four disc brakes on 9.5" wide corvette wheels with 275-40-17 tires. It makes regular appearances at local auto cross events.

1986 Camaro Sport Coupe
