1970 Plymouth Cuda 340
Jeremy Kulp • Syverson Tile & Stone • Sioux Falls, SD
 I always wanted a 70 hemi Cuda! But I settled on this numbers matching 340 real deal BS23 'Cuda instead. It is believed to be an ordered car as it was built late summer in 1970 and it also has a RARE automatic on the column shift rather than the console shift that most of the 'Cudas came with. Factory AC, gill rockers, wood grain steering wheel with the Barracuda fish on the horn and the rally package instrument cluster. I like to call her the Cursed Cuda! She is a beauty!

Super SAM®125 - If it's not SAM®, it's not sound control

CALIFORNIA

Tom Peck • Custom Building Products • Huntington Beach, CA
I acquired this car three and a half years ago out of the Les Wexner, Ohio collection. Besides racing in Scandinavia, the car was a winner on the winter ice races. In more recent times it raced in 17 consecutive Millie Miglia races. The three-year restoration was modeled after its debut at the Stockholm Auto Show in 1955. Last year it was awarded Best of Class at the Pebble Beach Concours d' Elegance in Monterey, CA.

David Wilkinson • Wilkstone, LLC • Paterson, NJ

When I first went to work for my father, George, I drove the identical year and model Ford to and from suppliers. I bought this truck about 20 years ago and had it restored. In the good weather we park it in front of our office.

We already had a classic car that we show. We decided we wanted one that we could enjoy driving. We started looking for a late 60's Chevrolet and this is what we found. We bought this car in December 2018 in North Carolina and are beginning the restoration process. It was the first year for the Chevrolet Camaro and has a 327/300hp with a TH350 transmission. We are driving and enjoying this car during the restoration. We plan to see the USA in our Chevrolet.

SubSeal® - Liquid waterproofing membrane

TENN 74

J.D. Shelton • Shelton Tile & Laser Design • Johnson City, TN
 When a Mopar friend of mine told me about this project Challenger that was for sale, I jumped at the chance to buy and restore it. It was a hideous blue, wouldn't run, and needed help everywhere except the interior, which was in excellent shape. It has two fender tags, is back to its factory triple black (exterior, interior, and vinyl top), and has factory deleted stripes. It's a numbers-matching small block 360 bored over 30. It even had the build sheet intact under the back seat, and original jack in the trunk.

1965 Ford Mustang 289 V8
Marc Mularoni • Louisville Tile • Mason, OH
 I purchased the car in 2018, at the Mecum auction in Indianapolis. Because of this I know very little history about the car. It has a front bench seat which is rare as only 15,000 cars with a bench seat were made, out of 560,000 total Mustangs produced in 1965. What drew me to this car was an emotional connection to my father, who passed away about 1 year before the auction. He owned a white 1964 V2 Mustang convertible, which was his favorite car to cruise around in.

Vermont

Brad Turner • PRO-TILE • Bennington, VT
 I looked for a long time to find this truck. I found this in Washington State and had it shipped to Vermont. I love the double mustache grill. I did a complete mechanical restoration, leaving the paint like I found it. I call him "The Duke" because it reminds me of John Wayne.

CALIFORNIA

Joe Salvo • Miracle Sealants, Inc • Newport Beach, CA

I purchased the car in August 2017 from the second owner. 1967 was the first year of the "S" model for the new 911 short wheel base line and the first year of the "Targa" top. The "S" pumped up the HP to about 160 and added various performance items to the car. In 1967, Porsche built just 483 911 S Soft Window Targa cars worldwide. The car has undergone a 17 month frame off, nut and bolt restoration to factory original condition by Car Parc - Early 911 Specialists in Costa Mesa, CA. Only original or NOS parts were used in the restoration.

Russell Raines • Elite Flooring • Norcross, GA

My brother and I purchased this in the spring of 2018 and performed a complete frame off restoration. We replaced the drivetrain with a new 6.26 GM engine paired with a 6 speed auto transmission. The interior was upgraded with a new custom stereo, new A/C, leather seats and a new soft top. This has been our favorite build by far.

1972 Plymouth Barracuda

Tom Duve • NAC Products, Inc. • Stow, OH

This is a very special automobile for personal reasons. I bought the Barracuda right before I launched NAC Products, Inc. in 1983 and completed the restoration the month I retired from the company in June of 2019. One of 400 Barracuda's produced by the Plymouth of Chrysler and optioned out as a high performance "Cuda". Along with all original rust-free body panels, this car has had a nut and bolt top to bottom restoration and is a numbers matching car.

MISSOURI

Mark O'Bryan • Art & Architecture, Inc • St. Louis, MO

I inherited the car from my grandfather, the original owner, in 1983. He bought the car March 18, 1965 for \$3591. This was my first car, it was my daily driver from 83 to 1990. Around 1986 I had saved some money and got the car repainted. I worked with my Father to remove & reinstall every piece of chrome detail to make for a better paint finish. Over the years I rebuilt the electric motor that controls the roof, installed new brake lines, fuel lines, gas tank and electric start and seat belts. In the early 1990's I applied for historic plates and have only driven the car in nice weather since then.

SubSeal® Liquid - For surfaces that require waterproof protection

www.nacproducts.com

(800) 633.4622

Dave Boyes • Tiling Trade Supplies Ltd. • Auckland, NZ
 John Wilson, who was our City Manager, owned this for a number of years. He had a stroke and could not ride it any longer so it sat in our warehouse collecting dust and rust. He passed away two years ago and I thought I would bring it back to life in memory of him. I had it fully stripped revealing a very cool grey patina looking color so I left it and had it matte clear powder coated in a Midnight Bronze.
