## Accepting Submissions for 2023

Do you own a classic vehicle or know someone in the flooring industry who does? NAC is taking submissions for the 2023 calendar.

Send pictures to dhanna@nacproducts.com for consideration.

## COBRA REPLICA 1965

"The Cobra has been my dream car since my teens. I knew I wouldn't be able to own a real Cobra, so a replica was the way to go for me. I chose Unique Motorcars from Alabama because of their reputation and the quality of their kit. With a loving and understanding wife, I was able to get the car of my dreams. Well worth the wait!"

Marty Ohlis – Ohlis Paint & Interior, Inc. Grenada, MS

**ECB<sup>®</sup>**

Crack Isolation Sheet Membrane

The original crack isolation membrane protects for up to 3/8" of lateral substrate movement.

## CAMARO SS/RS 1969

"This is my first classic. I acquired it from a friend in Ohio two years ago and I really had to push him to let it go. It's a 396 4-speed that has undergone a full restoration with non-matching numbers and original replacement parts. I always wanted a '69 Camaro. Something in that car portrays pure nostalgia and muscle to me. I'm amazed at how many people recognize the car when its on the road and I knew I had to have one once I had the chance."

Bill Zonca – Zonca Terrazzo – Armonk, NY

Waterproofing Membrane

Liquid waterproofing membrane and sealant for surfaces that require waterproof protection.

## MUSTANG GT500 1967

“I have been into Mustangs my entire life, but as soon as the movie “Gone In 60 Seconds” came out in 2000, I wanted to build that car. It took a while but in February 2018 I purchased the 1967 Fastback. A little over three years later, the motor is a 427 Stroker/525HP, coil over suspension, air conditioning, and Apple car play complete with back-up camera,”

Eric Gritz – American Olean/Dal Tile – Cranberry Twp, PA

## Strataflex<sup>®</sup>

Waterproofing Sheet Membrane

Sheet waterproofing membrane with a 2" double stick lap joint that creates a water-tight seal.

## SHELBY COBRA 2010

"I've wanted a Shelby Cobra for 25 years. A friend purchased this vehicle eight years ago, which is when I fell in love with this viper yellow. Last year he called me and said it was for sale. I took a video of it starting up and showed it to my wife. She said, "you don't need my approval, just go get it." It was built in 2010 and has a few leaks and other minor issues for a car that's been sitting, but it only has 1300 miles on it!

Artie Clayton – A.C. Ceramic & Marble Co. – Louisville, KY

## Super SAM<sup>®</sup> 125

Sound Abatement Sheet Membrane

Super SAM has an IIC 51 and STC 54 over a concrete substrate and provides crack protection up to 3/8" of lateral substrate movement.

## AUSTIN HEALEY SPRITE MARK II 1963

"I bought this little roadster in 1977 while finishing up my Architectural Degree at OSU in Columbus, Ohio. She was my trusty year-round daily driver all through my college years. Fast forward 40+ years, three kids, five houses (and 30+ years buried in their respective garages), I finally dug her out and embarked on a long overdue restoration as my covid-relief project (or rather, obsession). This '63 Sprite is a classic British Sports Car and a lot of driving fun packed into a small package. At all of 950 cc's and pushing 50 HP - but only 1500 pounds - it does remarkably well on an Autocross course, and I have a few 'H' class trophies to prove it." [Michael Wildermuth, AIA – Vocon Design/Architecture – Cleveland, OH](#)

## **BBC VENOM CHOPPER** 2004

“I got caught up in “Motorcycle Mania” and built myself a chopper. I covered areas on the chopper that would normally be painted, with oil-tanned leather. I recessed the speedometer and tachometer into the gas tank and engraved the entire frame, handlebars, exhaust, headlight and more and had it all chromed. I built a sword hand shifter with a foot clutch that keeps most people from wanting to ride it! The leather still looks as good as it did the day I finished it 17 years ago. I rode it from Iowa to Sturgis during the last episode of “Biker Build Off” on the Discovery Channel. The 100-inch V-twin gives it plenty of punch and I’ve really enjoyed riding it over the years.” **Brad Turner - PRO-TILE - Bennington, VT**

## Moisture Lock 101<sup>®</sup>

Liquid Hardener

A water-based hardener and sealer that penetrates the pores and capillaries in concrete substrates to stop MVT and maximize NAC primer coverage.

## PLYMOUTH GTX 1967

“This car was inspired by the Legendary Silver Bullet that was street raced on Woodward Ave. back in the late 60’s and early 70’s. Woodward Avenue is in the Detroit area and was a place the big 3 would send out prototypes to race and test on the street. The original car, the Silver Bullet was backed by Chrysler. It was given prototype race parts such as the first aluminum heads and stroked crank to compete on the street. The car never lost a race. My car is close to the one that raced. It has a 511 cubic inch Cross rammed HEMI. Automatic and a Posi rear. The electric exhaust cutouts open the headers right up. The car was just finished, and I can’t wait to drive it.” [Paul Bronikowski – PJB Sales – Clarkston, MI](#)

## ROUSH EDITION SHELBY COBRA 2021

“I remember the first time I saw a Cobra, because I had no idea what it was, so sleek and eye catching. I said when I grow up, I will have one of those. Many years later, after searching for months for a fun weekend car, my wife calls me into the office and shows me a brand new 1965 modeled Cobra on her computer screen. Not even 10 minutes later, I was on the phone making an appointment to see this car. It was built by Backdraft Racing as a perfect show piece at car shows. When all the car shows were cancelled due to Covid, they decided to sell the car. It weighs just over 2300 lbs. with a 427-motor fixed with a Holley carburetor and features a Porsche dark blue color.” [Kosta Kellikidis – OMG Stoneworks – Porter Ranch, CA](#)

ECB<sup>®</sup>

Crack Isolation Sheet Membrane

Rated "Extra Heavy Duty" and is a perfect application for malls, airports, condominiums, hotels and more.

## OLDSMOBILE STARFIRE 1964

"I bought this vehicle at the beginning of October through a cattle auctioneer in Stetsonville, WI. This was the first time the auctioneer was auctioning off something other than cattle. I also have a 1966 Starfire that is a different body style. I've owned that for about 12 years. I am the third owner of the '64 that now has just over 38,000 original miles. Besides routine maintenance items like tires and brakes and such, everything else on the car is all original from the factory. It's known as the "executive's hot rod". The Starfire's are big cars with big block motors that have a lot of power and are just as luxurious as a Cadillac."

Justin Hurd – Stu's Flooring – Waukesha, WI

## Extreme Deck System

Combines Strataflex® and SubSeal® to create a double layer of waterproof protection especially over a living space.

## DODGE WARLOCK 1977

“We grew up with Dodge and we own several classic Dodge vehicles. We saw this Warlock at a show about 5 years ago and I begged my husband Josh to get it. He was not really impressed with the truck, and we left without it. A few days later, he surprised me and showed up with it in the driveway! The chrome side-step in front of the fender, is one of my favorite things about the truck. The color is always a conversation, as some see it as red and others see it as orange, so we call it red orange. We love going to car shows and just cruising around.”

Brandy Woodie – Woodies Floor Covering – Maynardville, TN

## LAMBORGHINI GALLARDO SE 2006

“We acquired this 2006 Lamborghini Gallardo Special Edition (SE) in December of 2008. Number 202 of 250 made, the SE came with some special touches not on standard Gallardo’s, including a special paint scheme, unique interior scheme, additional horsepower (520 hp) and an upgraded E-Gear transmission. This car is painted in the quintessential Lamborghini paint color of Arancio Borealis Paint Code #LOE2 (Orange Metallic). It has a Front Skid plate installed by dealer and so much more. The car is all wheel drive and capable of 197 mph top speed. Fun to drive, especially on the racetrack!”

Joe Salvo – Miracle Sealants (Retired) – Newport Beach, CA
