FORD PHAETON MODEL 18 1932

"The Phaeton has a Chevy small block 350 with 177 B & M forced induction blower, 4L 60 automatic transmission, and Ford 9-inch rear end. We acquired this custom-built Phaeton from a Classic Car dealership. It is a two-seater roadster that is copied off of Chip Foose's Phantom Vickie."

DODGE DART 1969

"As a high schooler in 1985, I saw it in my neighbors' yard. I knocked on the door and \$800 later it was mine! I've driven it to Daytona Beach for spring break and to Tulsa, OK for school. The Dart sat lifeless in the garage for about 10 years while I did the family thing. I started its current restoration about 2003. It has a 340 4 speed, its not perfect but it's mine!"

VOLKSWAGEN BEETLE 1964

“I had a 1968 VW Bug in high school (late 80’s) with a 1776cc engine that was very fast and have always loved old cars. I found this restored 1964 bug in Georgia and bought it from a lady who was a retiring corrections officer and had 4 VW’s. It has an original 1200cc 36HP engine that actually has some pep, it runs and drives beautiful and turns heads from young and old. Everybody has a story about a bug they’ve been in.”

CHEVROLET SUBURBAN 1966

“AKA Sergeant Pyle,’ with my wife and three kids, I needed something a little larger than your average hot rod for the family cruises and events with the Upstate SC GM Truck Club. I picked up this former US Government Suburban and spent three years rebuilding it with air ride suspension, an LS engine, front and rear heat/AC and much more. Since I share my two-car garage with my kids, I decided to keep the “patina” look.

CHEVROLET CORVETTE 1961

"I was in college in 1961 and loved Corvettes! I have owned several over the years including this one and a 2021 Sting Ray. I found this in California several years ago. It is all original and has never been restored!"

FORD T-BUCKET 1923

"With a bit more horsepower than it had in the 20's, its classified as a street rod with a 350 engine, Edelbrock dual quads, this one is too fast for the country roads. The chromaflair custom paint job with hand painted flames and the classic tufted interior would be sure to raise Henry Ford's eyebrow today."

CHEVROLET CHEVELLE 1968

“I’ve had Annie for 8 years. She was born in Ohio, built in Texas and lives in Illinois. My Father always named his cars, so it became a custom for me as well. Annie is my Father-in-law’s pet name for my wife. Since my formidable years, muscle cars have been an interest of mine from building models to tinkering with them in my teens. I’ve always been partial to Chevy’s and a ‘70 Chevelle is at the top of the list. The best part about Annie is her 572 engine, with 700 HP she can run at the front of the pack!!!”

FORD MUSTANG ROUSH 427R 2010

“Zelienople VFD raffles a vehicle annually as a fundraiser. We have been purchasing tickets for many years and purchased a book of 11 from a friend. Our kids would always say it was a waste of money because we never won, but it was for a great cause. One evening my wife gets a call from the VFD saying we won the car! Thinking one of my friends was playing a joke on her she didn't believe it. We contacted our friend who sold us the tickets and he contacted the Fire Chief who confirmed it was real, WE WON!!”

OLDSMOBILE 442 SEDAN 1968

“SAVED is what I did! This 442 got a second chance at life when a friend caught it on a flatbed truck on its way to the crusher! It took about three years to bring it back to its current condition. She’s a driver, and gets love at least once a week!”

FORD MUSTANG 1966

"This is my first true Mustang, not counting my 1974 Mustang II I had in the mid 80s. I've owned this car almost 20 years and have lots of great memories with my kids and family. I actually spoke to the original owner and have written back and forth with pictures. One thing she said that always stands out when I talk to her and her husband, she said it 'brings back lots of great memories from their courting days.'"

MAZDA RX-8 SHINKA 2006

“Had a Mazda RX-7 1984 GSLSE at the end of my time at the University of Denver. Fast forward to 2006 and we were looking for a 3rd car and my wife wanted a two-seater but we had one child and needed a back seat. We looked at the Mazda RX-8 and wow what a difference 20+ years does with technology and performance. This was the fastest Mazda built for consumer use on public roads. We took for a test drive and decided to take it home. We kept it in the garage and bathed it weekly, but it can still beat most cars off the line. Rear wheel drive, 6-speed with a Bose sound system, this car has been a joy to drive and it only has 69,000 miles on it, zoom, zoom!”
