## Accepting Submissions for 2025

Do you own a classic vehicle or know someone in the flooring industry who does? NAC is taking submissions for the 2025 calendar.

Send pictures to [mpeffer@nacproducts.com](mailto:mpeffer@nacproducts.com) for consideration.

## **FIREBIRD 400 CONVERTIBLE 1967**

“I found the car in a trade in 1995. I performed an amateur restoration on it. I drove it for a few years and then moved on to other projects. Fast Forward to 2019. I decided to perform a total tear down and restoration to the car. The car was in painters’ jail for 2 ½ years and I finally got it back in the spring of this year. It is my favorite car I have and will enjoy it for years.”

**Paul Bronikowski – PJB Sales, Clarkston, MI**

**ECB<sup>®</sup>**  
Crack Isolation Sheet Membrane

The original crack isolation membrane protects for up to 3/8" of lateral substrate movement.

## **CHEVROLET MALIBU SS PROSTREET 1965**

“My father and I dug this car out of a 6’ snow bank back in February of 1992. I was 18 years old. We spent almost 7 years building this car together with the help of many good friends. I will always cherish all the things I learned from him during those nights and weekends in our garage.”

## ECB<sup>®</sup> 75

Crack Isolation Sheet Membrane

For interior residential applications that require protection from structural movement.

## **FORD THUNDERBIRD 1955**

“Fully restored, ground up vehicle. Purchased so my father and I could restore together in late 2009 just a few months before his sudden passing. This car spent time in a few different race shops as well as personal shops of team members, to bring it back to life. The car has all matching, original numbers including the engine, chassis, and frame. It has been driven about 4,500 miles locally in the past 8 years. My wife and I enjoy late afternoon, leisurely drives around town and get lots of friendly waves and comments.”

**Robbie Bassinger– Homebase Sales & Service, LLC – Mooresville, NC**

KEY Products

**SubSeal®**  
Waterproofing Membrane

Liquid waterproofing membrane and sealant for surfaces that require waterproof protection.

## **PORSCHE 911 RS** 1973

“We purchased the car in 2020. The car was solid and ran great! In the time we have owned the RS we have converted it back to the way it left the factory removing the Green Side and Tail Graphics and replacing the Tail Graphics with the proper Black Graphics. We kept the side “clean” as it was when it left the factory with no graphics at all. We also had the wheels properly restored to original and wrapped them with period correct Pirelli Cinturato CN 36 tires. My wife, Shella and I drive the car almost every weekend and thoroughly enjoy the experience. What an amazing vehicle and hard to believe it is 50 years young!!”

**Joe Salvo – A.C. Ceramic & Marble Co. – Louisville, KY**

## Strataflex® Waterproofing Sheet Membrane

Sheet waterproofing membrane with a 2" double stick lap joint that creates a water-tight seal.

## **LINCOLN K MODEL, 7-PASSENGER TOURING CAR BY WILLOUGHBY (TOP) 1937**

"I acquired this car about 20 years ago. It is a very low mileage car that did nevertheless undergo a restoration at the time I purchased the car. The paint is Sage Brush Green with black trim and fenders, as it came out of the shop new. The car was one of only seven made and was first owned by the State of California and used as a Governor's Parade Car."

## **LINCOLN KB MODEL CONVERTIBLE ROADSTER BY LABARON (BOTTOM) 1933**

"This car is one of seven surviving of the 33 originally made in 1933. It featured a V-12m 448ci engine and sits on a 145in wheel base chassis. It was delivered new to Long Island, NY. In 1946 it was purchased by Joseph Joseph of Vermont, one of the charter members of the Classic Car Club of America, who restored the car to 110 Point perfection. Following Joseph's passing, the car was purchased by Lincoln aficionado Albert Nault of Gross Point Farms, MI. I bought the car in 2020 and am in the process of restoring the car back to high point Classic Car Club of America judging standards."

**Dave Johnson – Summitville Tiles, Inc. – Summitville, OH**

## Moisture Lock 101<sup>®</sup> Liquid Hardener

A water-based hardener and sealer that penetrates the pores and capillaries in concrete substrates to stop MVT and maximize NAC primer coverage.

## **CHEVROLET SUBURBAN** 1966

“AKA Sergeant Pyle,’ with my wife and three kids, I needed something a little larger than your average hot rod for the family cruises and events with the Upstate SC GM Truck Club. I picked up this former US Government Suburban and spent three years rebuilding it with air ride suspension, an LS engine, front and rear heat/AC and much more. Since I share my two-car garage with my kids, I decided to keep the “patina” look.”

**Ryan Marino – Tile Council of North America – Clemson, SC**

Super SAM has an IIC 56 and STC 61 over a wood joist system.

## AUSTIN HEALEY SPRITE MARK II 1963

“I bought this little roadster in 1977 while finishing up my Architectural Degree at OSU in Columbus, Ohio. She was my trusty year-round daily driver all through my college years. Fast forward 40+ years, three kids, five houses (and 30+ years buried in their respective garages), I finally dug her out and embarked on a long overdue restoration as my covid-relief project (or rather, obsession). This ‘63 Sprite is a classic British Sports Car and a lot of driving fun packed into a small package. At all of 950 cc’s and pushing 50 HP - but only 1500 pounds - it does remarkably well on an Autocross course, and I have a few ‘H’ class trophies to prove it.” **Michael Wildermuth, AIA – Vocon Design/Architecture – Cleveland, OH**

Rated "Extra Heavy Duty" and is a perfect application for malls, airports, condominiums, hotels and more.

## **GMC 100 W/NAPCO 4WD “THE DUKE” 1956**

“I looked for a long time to find this truck. I found this in Washington State and had it shipped to Vermont. I love the double mustache grill. I did a complete mechanical restoration, leaving the paint like I found it. I call him “The Duke” because it reminds me of John Wayne.”

**Brad Turner – PRO-TILE – Bennington, VT**

## Jobsite Protection

NAC offers a variety of professional grade surface protection paper to protect job site surfaces from paint, stains, glue, and grime.

## **HUDSON HORNET CONVERTIBLE 1952**

“Roughly twenty 1952 Hudson Hornet Convertibles remain of the original 360. Mine was abandoned in a dry creek bed in 1965. Thirty-five years later, I was gripped with the irrational drive to restore her. I sourced parts from 48 states and 4 different countries over nine painstaking years. With over 600 NOS parts, TWIN-H Power, a Hydramatic transmission, and hydraulic windows, we call her Scarlett, for her flashy red contrast and because, like Scarlett O’Hara, she’s beautiful but painfully demanding.”

**Russell Chilton – Gomez Floor Covering – San Antonio, TX**

## Extreme Deck System

Combines Strataflex® and SubSeal® to create a double layer of waterproof protection especially over a living space.

## **CORVETTE STINGRAY CONVERTIBLE 1967**

“This was my dream car at the age of 18. A close friend whose father owned a Chevy Dealership drove an identical Corvette when we graduated high school. It has a 427/Tri-power 4-speed with Posi-Traction and off road side exhaust. I purchased mine in 2008 from an acquaintance who did a complete frame off restoration. I drive it about 200 miles a year. It’s always a great thrill to get behind the wheel on a warm sunny day and cruise the open road – great stress reliever.”
